THE RECKONING . . .

"In Glasgow the labour administration has adopted Thatcherite economics. As part of their strategy of economic regeneration, they have attempted to give the famous Glasgow Green to money-obsessed redevelopers."

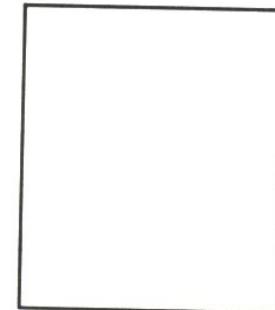

"At a heavy cost to the public purse Glasgow's image is to be overhauled and tarted-up so that financial services can flourish, up-market shopping malls thrive and high-priced luxury flats proliferate to the glory of capitalism."

"What has been presented as a celebration of art in all its diversity has become an actual assault on the artistic and cultural life of the city."

"The prevailing gloss like culture of this 'culture city' is similar to the new advertisement hoardings which are constantly being erected as short term facades, hiding the waste and dereliction behind them. As a metaphor, these facades represent the use of an imposed and distracting situation to hide the deprivation and inadequacies happening in this city and its peripheries. Also as a cover up for the rise in privatisation and weakening control of the city by its public inhabitants and workers."

TRIDENT?

Updating Trident will cost £25 billion. The lifetime costs of Trident will total £76 billion. £25 billion pays for 120,000 newly qualified nurses every year for the next 10 years, or 60,000 newly-qualified teachers every year for the next 20 years.

Just one Trident warhead wipes out a city of one million people.
We have nearly 200 stockpiled.

Trident ties us to US foreign and military policy.

Trident replacement violates the
nuclear Non-Proliferation Treaty.

IRAQ?

The war and occupation of Iraq will have cost the UK £6 billion by the end of 2007.

This would pay the construction costs of more than 50 hospitals.

With 650,000 Iraqi dead and thousands fleeing the country every day,
Iraq is in a state of collapse.

Majority opinion in the UK, USA and Iraq itself want the troops out
as do senior serving and retired military leaders in Britain.

Now Bush wants to escalate the war.

HOW WILL YOU VOTE?
